## Local Landmarks Portray Changing Community

In order to tell the story of Granite Hills High School, a view of the surrounding community is necessary. El Cajon, a growing city of 65,000 people, is gaining recognition throughout the state and even the nation.

The most recent and important development in El Cajon is that of the Superblock. This remarkable re-shaping of the central business district that has taken place since the El Cajon Redevelopment Agency met in 1970 for that purpose is phenomenal. The six story, 100,000 sq. ft. high rise will soon be complemented by a 10 story, 300,000 sq. ft. East County Administrative Center for county governmental purposes.

Many other structures mark the changes in El Cajon. The new Skateboard Park is very popular. The many different styles of housing developments are evidence of the changes that are necessary to house the many people migrating to this area. New shopping areas, churches and houses are being built. All of these landmarks contribute to the uniqueness of El Cajon.

1. El Cajon's Redevelopment Center, also known as the "Superblock", was landscaped in a beautiful park-like atmosphere.

2. A new and very popular recreational facility in El Cajon is the Skateboard Park. The Park seems to be a safer and more accessible alternative to empty swimming pools.

3. In order to house the residents of El Cajon, many builders find it desirable to use similar designs, demonstrated by this development on Pepper Drive.

4. The community surrounding El Cajon is growing and developing. This new church in the process of being built in Alpine, is evidence that churches are expanding also.

5. The El Cajon Civic Center is El Cajon's first high rise building.

6. The Performing Arts Center chose this statue, Pegasus, created by John Hubble, to stand in front of the new cultural center.

7. Parkway Plaza draws many people to El Cajon to shop in the climate-controlled mall.

8. A well known sight from almost any point in the valley, is the castle-like home built by George Brown.

# Colorful Activities Interest Students

Located in the eastern part of El Cajon Valley, Granite Hills High School is a very beautiful, open campus. The students and faculty at Granite Hills for many reasons believe that they are involved with the best school in the Grossmont District. Whether the reasons are clubs, sports, or academics, Granite Hills is definitely a superior school.

To begin the year, at the Grossmont Football Carnival, the Eagle football team and the fans put in a great performance to win the Spirit Trophy. All year long the Eagles put in superb performances winning and losing on occasion, but always with a tremendous amount of class.

Clubs make up an interesting diversion to the academic side of school. Whether the aim of the club is to help others or share something in common, they help the student to relax and enjoy school.

1. There is always something going on during Conference period.

2. Our ASB always comes up with something interesting to arouse spirit during pep assemblies. The Mighty Seniors won this Refrigerator Relay.

3. The Granite Hills Band has gained many awards in competition. Here they are participating in the Columbus Day Parade.

4. Granite Hills High School from a view not often seen by its students.

5. On Fridays the Granite Hills cheerleaders arouse spirit.

6. To spur our Championship Football Team on in the second half, a banner is displayed illustrating one of Granite Hills' unique mottos.

7. When the Eagles are on the field, there is always a sea of blue waving in the stands.

## Clubs And Hobbies Fascinate GHHS Students

What do you do when you are not in class? When they are not in the classroom? After the homework and sports, what do they do? Almost everyone has some hobby that they either pursue on their own or in a club.

Many students have hobbies that they pursue on their own. Some of these hobbies include reading, drawing, and playing instruments. Some students have hobbies that they pursue in a club. Some of these clubs include the chess club, the debate club, and the drama club.

Hobbies provide students with a way to relax and have fun. They also provide students with a way to learn new skills and develop their interests. Hobbies can be a great way to spend your free time and make the most of your life.

Cathy Eberle and Donna Ruck get back to nature through backpacking.

Cody Smith enjoys riding his motorcycle around El Cajon.

Richard Olsen sketches and paints after school.

Larry Hertel uses music to occupy his time while out.

Training dogs is the activity Cindy Sangi enjoys. She has taught her dog, Sonia, many things.

She also raises pigs and calves.

## Students Enjoy Recreation In Sports

Southern California offers a high school student a wide variety of physical activities to explore. As a result, sports have become one of the most important facets to many teenagers' lives. Whether students are involved in a team sport or competing individually, they are developing an important part of their future lifestyles.

The nearness of beautiful Mission Bay encourages many people to become involved in water sports and beach sports. There are different degrees of involvement; for instance, waterskiing can be a relaxing activity or it can be a pressure-filled tournament. Surfing can be a leisurely pastime or an incentive to get up at 5:00 A.M. Even the popular game, over-the-line, can be a competition between a group of friends or between strangers in a large tournament.

Whether the sport is making down a powdery slope at Mammoth Mountain, or challenging the sky as a pilot of a single-engine plane, there always exists that certain exhilaration and excitement that is a result of stretching endurance to the maximum and skill to the limit. From biking to horsebackriding, a student is enriched by the experience.

The proximity of water encourages many students to water ski, including Tim McQuinn.

Over the summer Marci Wagner discovered that Canada was an excellent place to hike ride.

No, this is not a Granite Hills student, but it does represent the very popular sport of snowskiing.

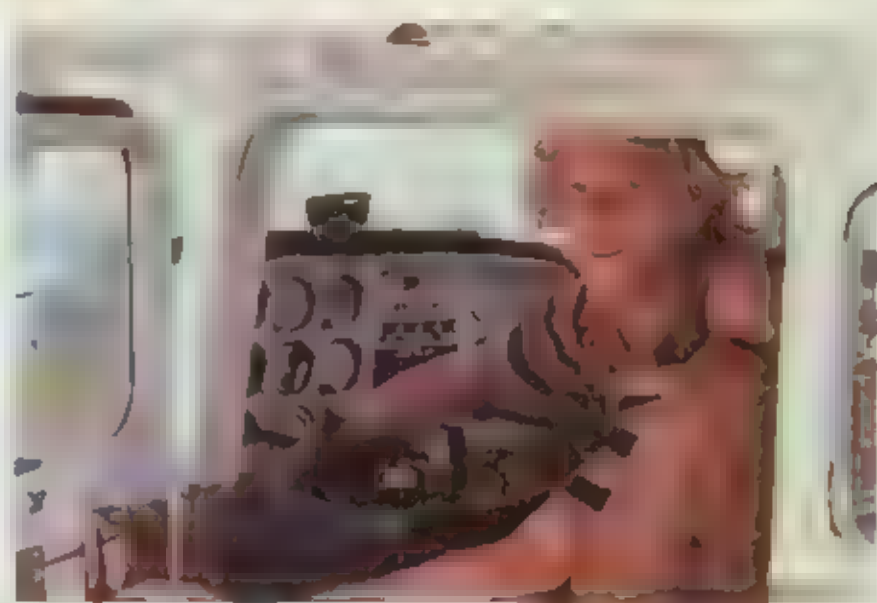

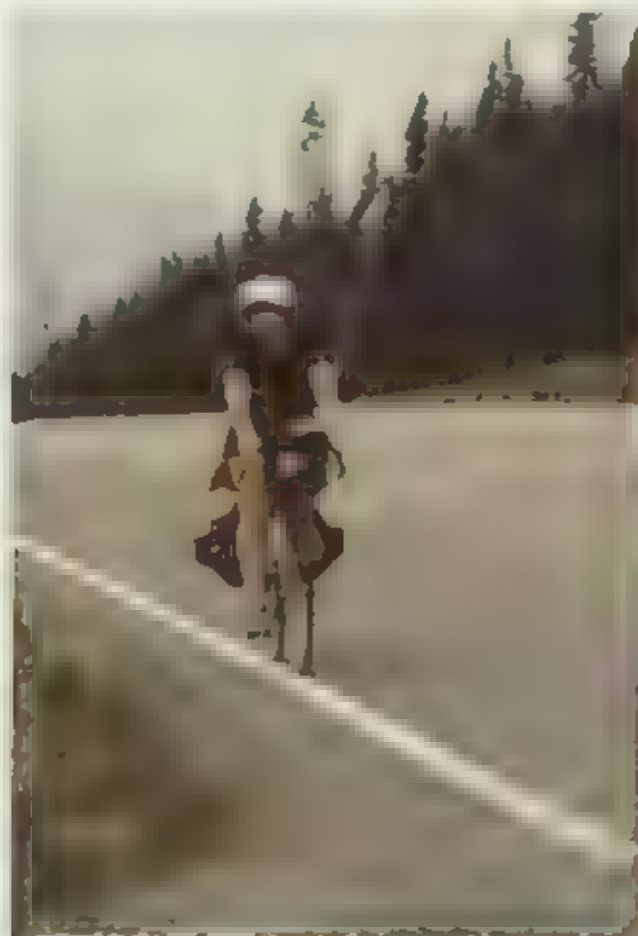

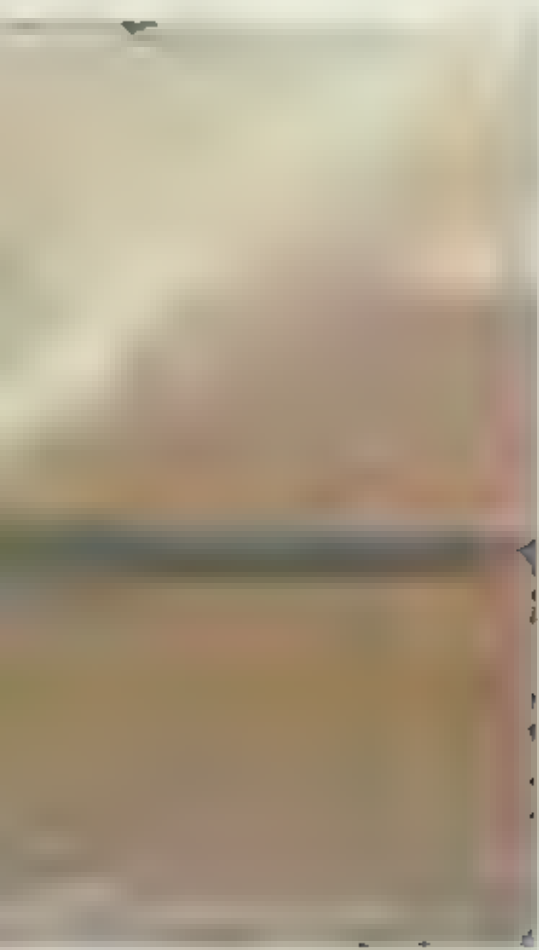

Skateboarding on a sidewalk is not challenging enough for many people so some, like Scott Reber, find an empty swimming pool.

Exploring the ocean in Hawaii is the exciting activity Mike DeLucia enjoys participating in.

Chuck Houser has been flying for a year and a half and was responsible for the aerial pictures on pages 2 and 3.

After school, Brenda Popke exercises and takes care of her beautiful horse, Brawmly.

## Friends From All Over The World

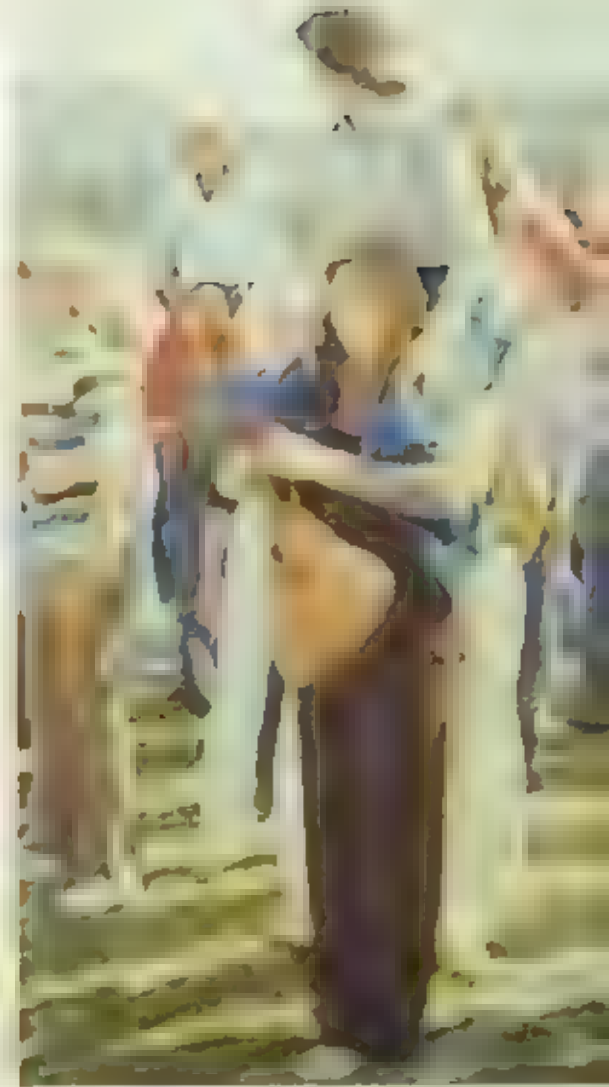

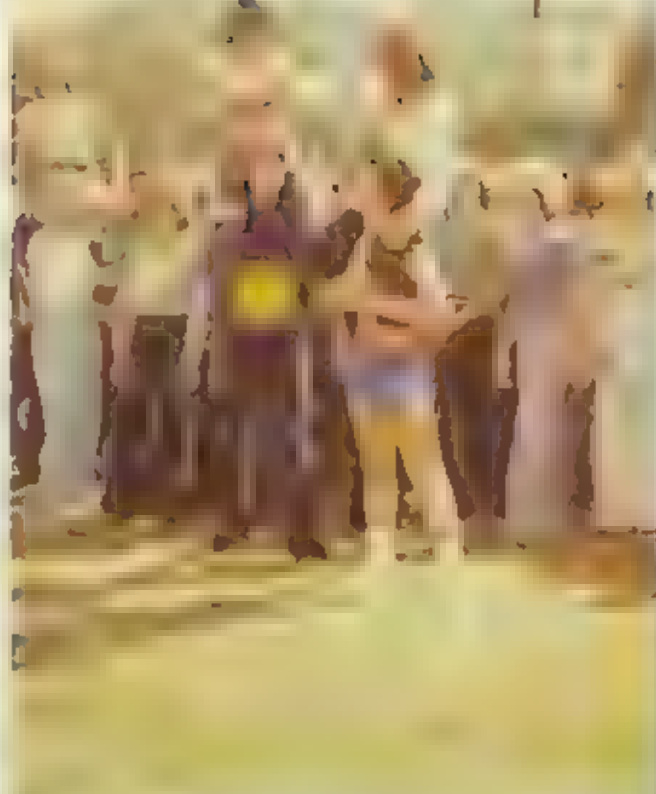

A. F. S. (American Field Service), is a program designed to bring students from different parts of the world together to get a better understanding of our way of living. A. F. S. began about 50 years ago. In order to bring students from other countries the school must have a Parent Chapter and a Students' I Club

- 1. Let's stop to how it is
- 2. Research on the
- 3. The first A. F. S. club in the U.S.
- 4. The map represents A. F. S. in the U.S.
- 5. How to join
- 6. Let's find out

SALLY HARTMAN

- 1 This Freshman is showing her excellent technique at flying
- 2 These two couples seem to be enjoying themselves
- 3 "Hev! A little higher"
- 4 Jim Jacob, Kent Paine, and Mark Ballman hold up one of the turkeys (Pete Drinco), at the Freshmen Initiation

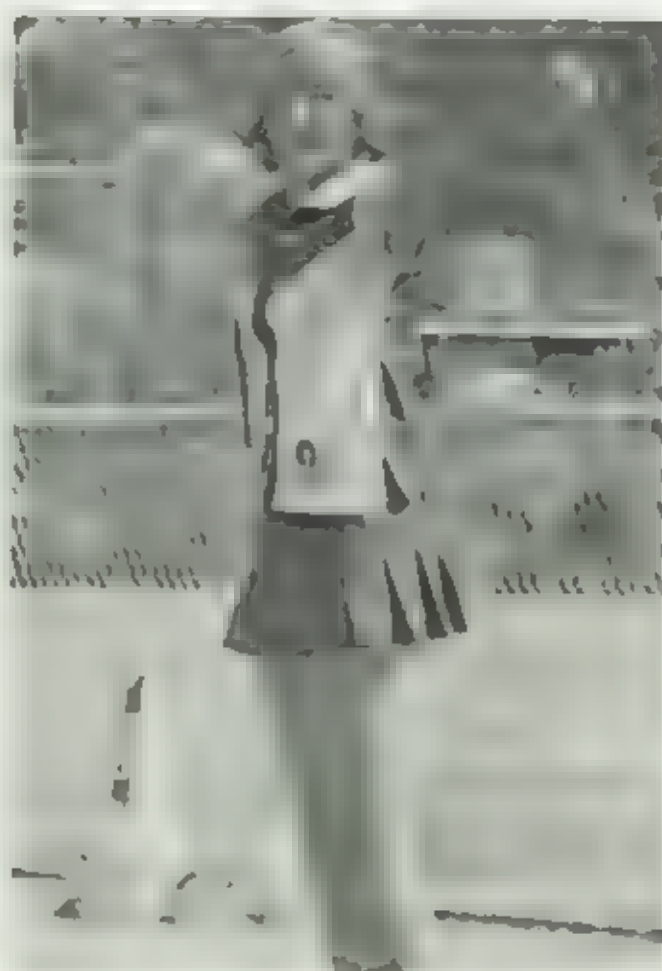

# Freshmen Initiation

The Freshmen Initiation of 1977 was a complete success. Because the Freshmen this year were very squirrely, the Football Team had their hands full

1. Shown here accepting the Spirit Trophy is Mark Jones, Jim Brian Graham, and Ron
2. The Varsity Football players cheer in one of their buddies at our first pep assembly
1. Like the sign says "78" The Class that's Great
1. The Cheerleaders help to calm down the freshmen

- 1 The move for peace in the Middle-East finally began. In December of 1977 President Sadat of Egypt flew to Jerusalem to meet Prime Minister Begin of Israel.
- 2 Elvis Presley's death created a frenzy of mourners all across the nation.
- 3 The Silver Jubilee drew many Americans to England to witness the celebration of Queen Elizabeth's 25 years' reign.
- 4 The bloody second life as "Son of Sam" finally came to an end after killing six young people.
- 5 Steve Cauthen, a 17 year old jockey, outrode everybody to a record \$6 million season's winnings.
- 6 The most popular movie of this year was "Star Wars," a space fantasy with personality-filled robots.
- 7 Corruption in high places still occurred during 1977. Bert Lance, Budget Director for Carter's Administration, resigned after congressional questioning about his financial matters.
- 8 Pele, once the highest paid athlete in the world, retired this year from professional soccer.

The 1977-1978 school year was full of many important events in politics, the entertainment field, and in the sports world. Incredible disasters occurred affecting our lives remotely, but still showing their influence just as crime or even the weather showed their's

On the political scene, probably the biggest move toward peace in the Middle-East was made when the president of Egypt, Anwar Sadat, visited Jerusalem and met with Israel's Prime Minister Begin. Meanwhile England's Queen Elizabeth II celebrated her 25 year monarchy, bringing many people to London to witness the pageantry. Anita Bryant fought against gay teachers and Bert Lance, the President's budget director, resigned because of his own questionable finances.

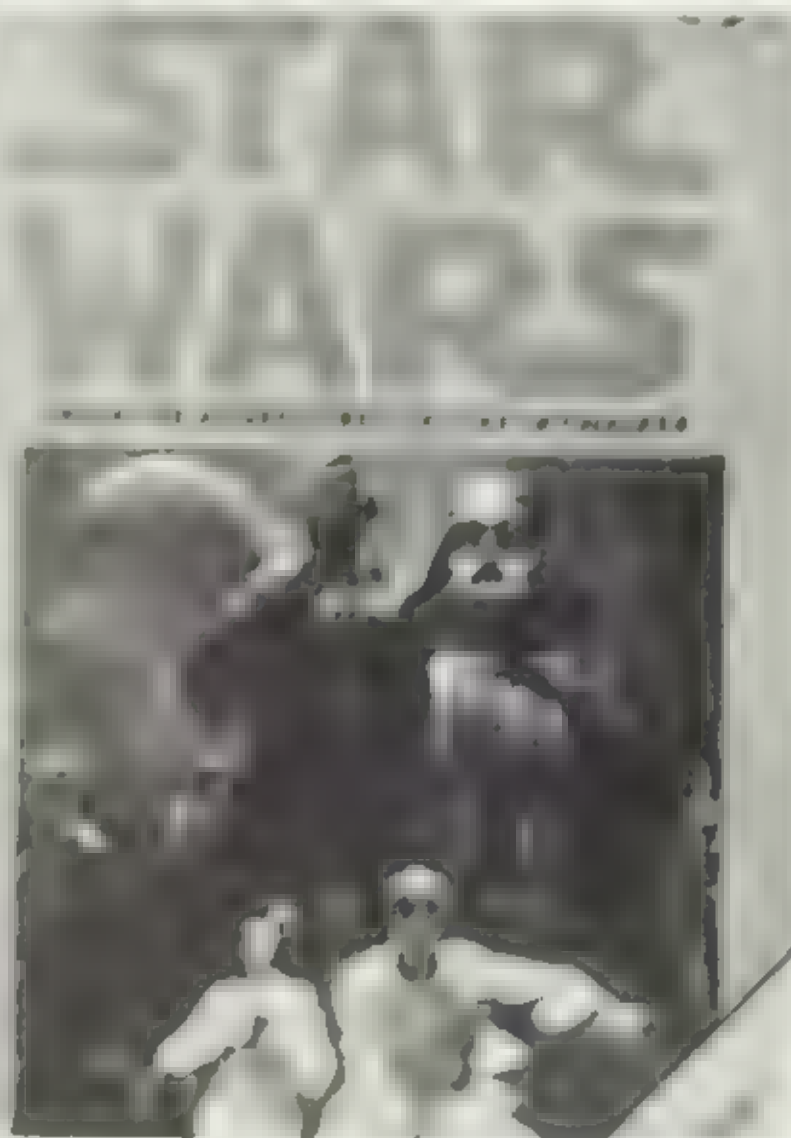

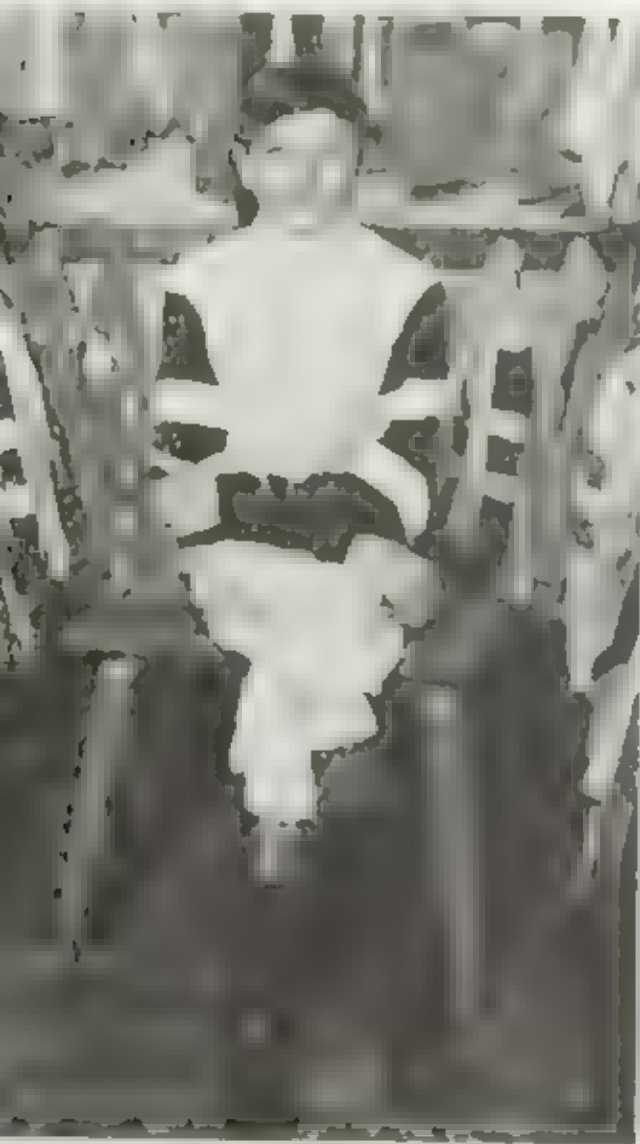

"Star Wars" became an everyday topic because it was a movie made for entertainment only. Many called it escapism, but almost everybody agreed that it sure was fun!

The world said goodbye to many beloved entertainers. Elvis Presley, Bing Crosby, Groucho Marx, and Charlie Chaplin all were mourned this year. Plane disasters took their toll, among those killed were many members of the popular rock group Lynard Skynard and the Evansville College's basketball team

In the sports world there was another Triple Crown winner. Seattle Slew won the Kentucky Derby, Preakness and the Belmont Stakes. 17 year old jockey Steve Cauthen, broke the record of total earnings by winning over \$8million. Soccer star Pele retired from the game, disappointing many fans who enjoyed watching him play

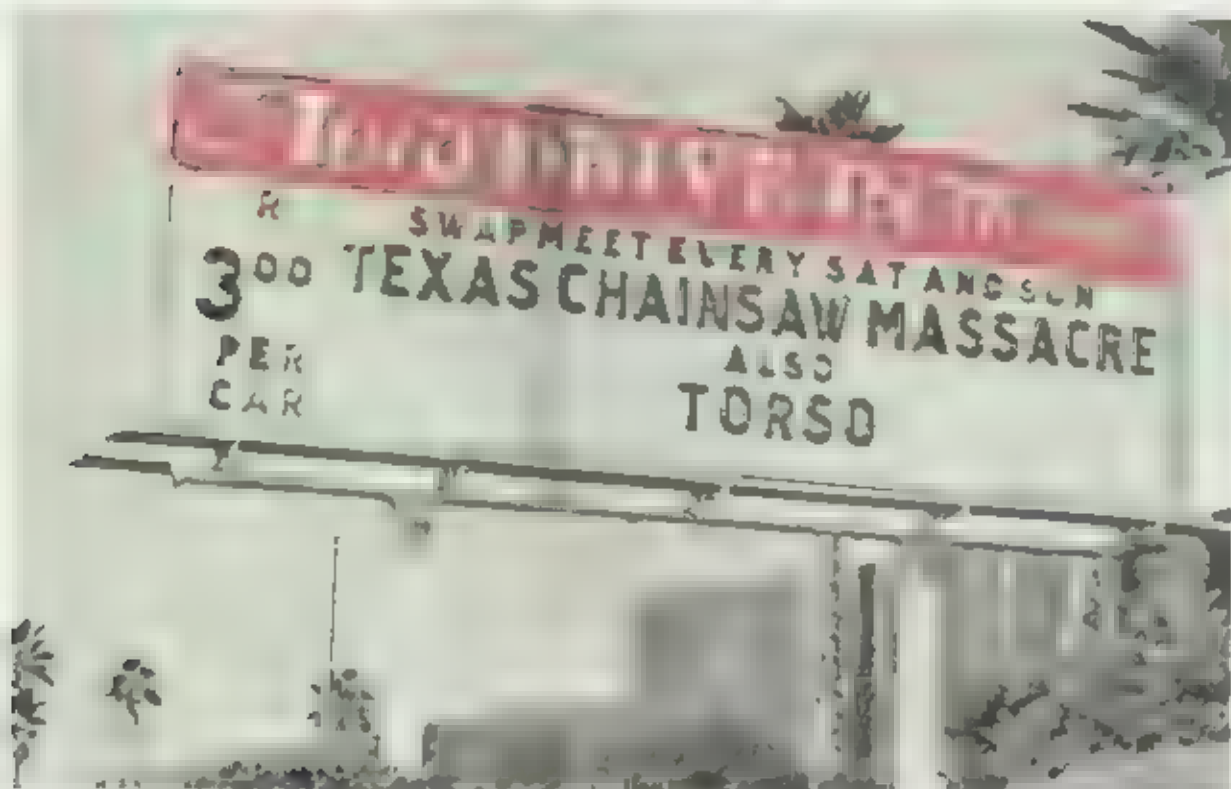

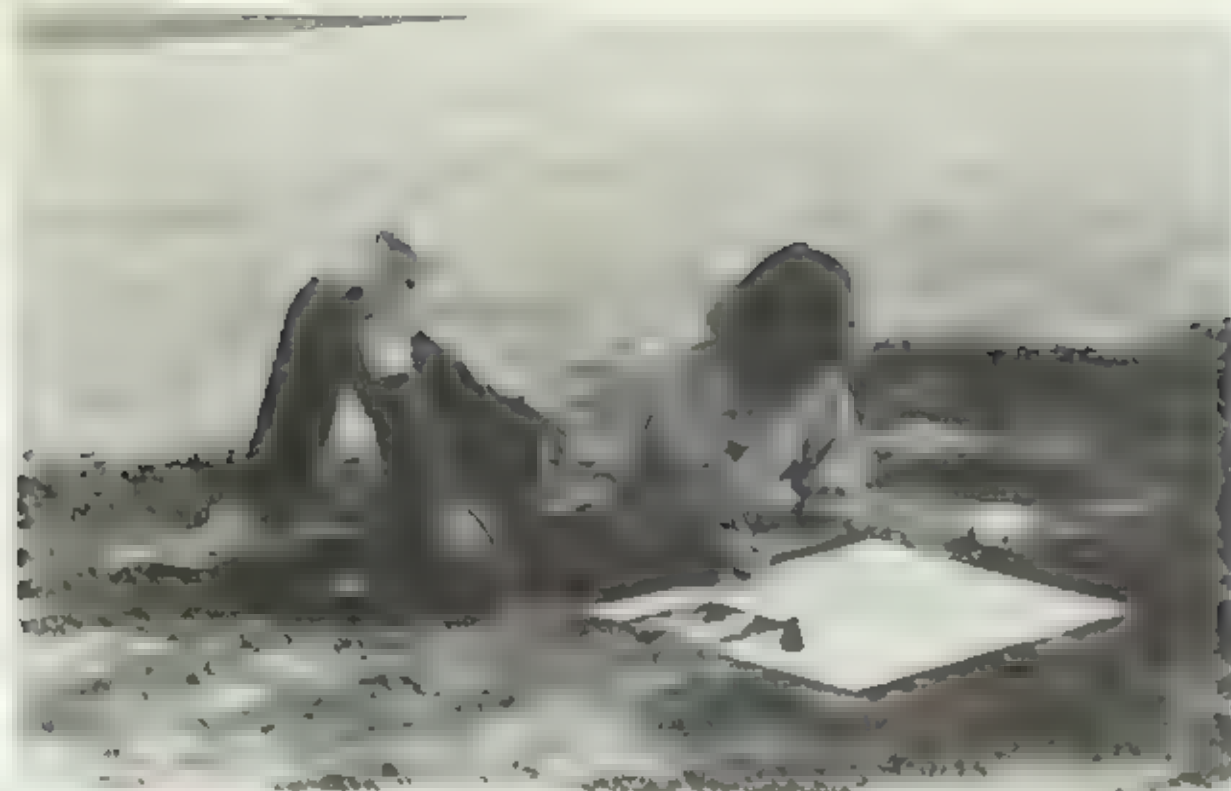

The weather picture was in some ways different and in some ways the same as the previous year. The East still had a bitter winter, but not as bad. California's drought was broken with weeks of steadily occurring storms which drenched the land. Damage from flooding became very commonplace

From the mysterious "Son of Sam" murders to the spectacular artifacts of King Tut's tomb which were exhibited in the U.S., the year brought many changes that effected each person's world. The school year of 1977-1978 was one to remember

For a student, earning money is no easy task. Many employers are looking for skilled workers, so the typical 16 year-old usually does not qualify. The jobs available to the students are often found in fast food restaurants or recreation areas. The money made from these jobs generally pays for a students vital necessities like cars, school matters, or girls/boys.

After the schoolwork is finished and the football games have been played, the students begin to congregate in certain places around El Cajon. Many times it is to eat pizza, hamburgers, donuts, or ice cream. Sometimes the students seek relaxation at various amusement centers such as Pinball Palace or Skateboard Park. There are also the more romantic places such as the drive-in movies or the very renown Shadow Mountain. All of these places serve as hangouts for much of the Granite Hill's student body.

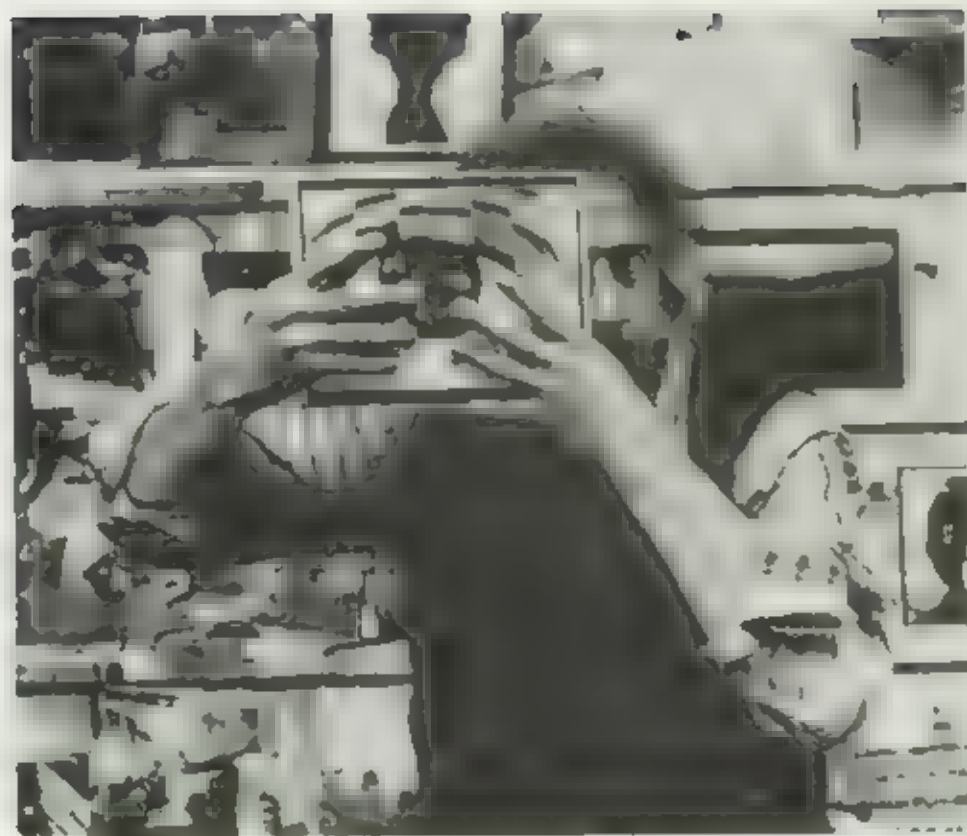

The youth of today are searching for their own type of distinguishing element to their personality. Young people everywhere are striving to establish their own identities, searching for individuality while at the same time conforming to society's rigid norms. High School provides the perfect environment for this elusive endeavor. Nowhere is the range of individual interests and goals greater than this social and educational melting pot. High School is the time for both physical and mental growth and the delicate transition from childhood to adulthood. During these four formative years, students learn the limits of individuality and the importance of conformity in order to gain acceptance. However the process is slow and awkward with frequent lapses. While each student strives to perfect the current social slang and behavioral traits to gain peer recognition, each also has a set of unique personal, eccentricities in order to tell the world that he is indeed a unique individual.

This years' class at G.H.H.S. have provided countless subjects to demonstrate this point and these pages offer just a few of these individualistic eccentricities.

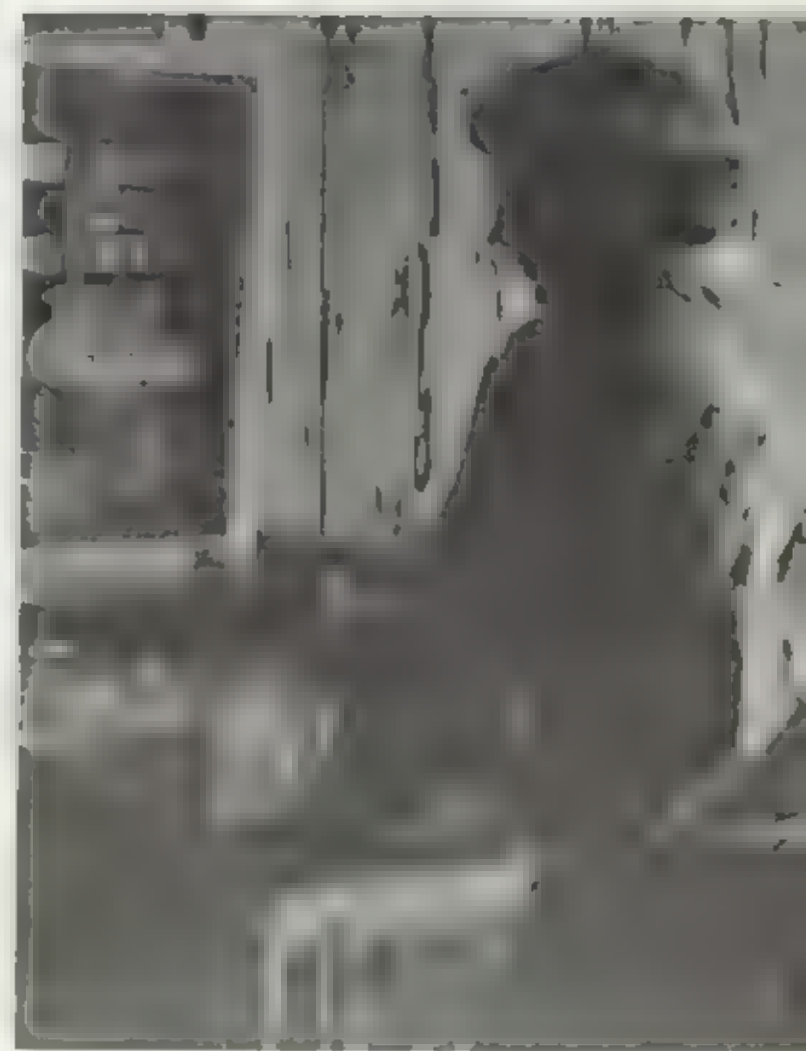

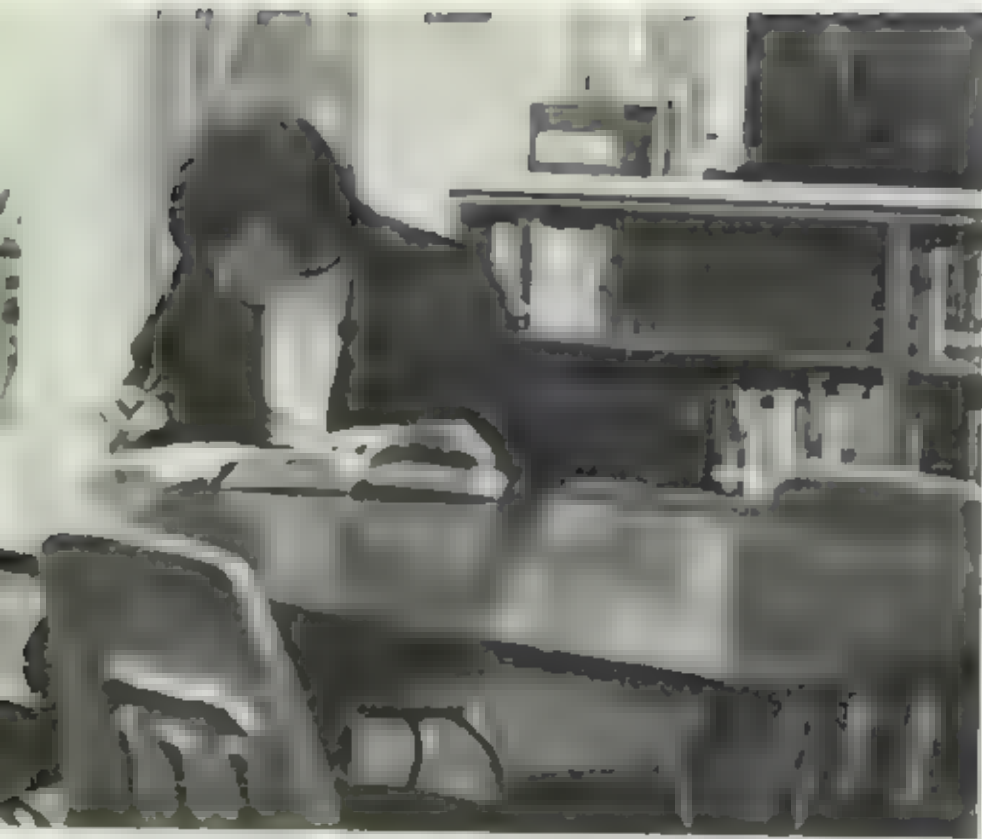

1. Mr. Bray has an interesting way of telling his students that he sees everything
2. Studying in the library, Jim Nolan tries to widen his horizons
3. Mohammad Abbaslou, one of our foreign exchange students, enjoys our California sunshine and green grass
4. Mark Hedberg finds time to express his originality through art
5. Brian Muse amuses himself after school at the pinball machine
6. Mike Bertolino proves a fact that is widely known, some of us are born clowns
7. Volunteering for the Spirit Week activities requires a certain amount of character, because one never knows what crazy things will happen

#### Don't Quit

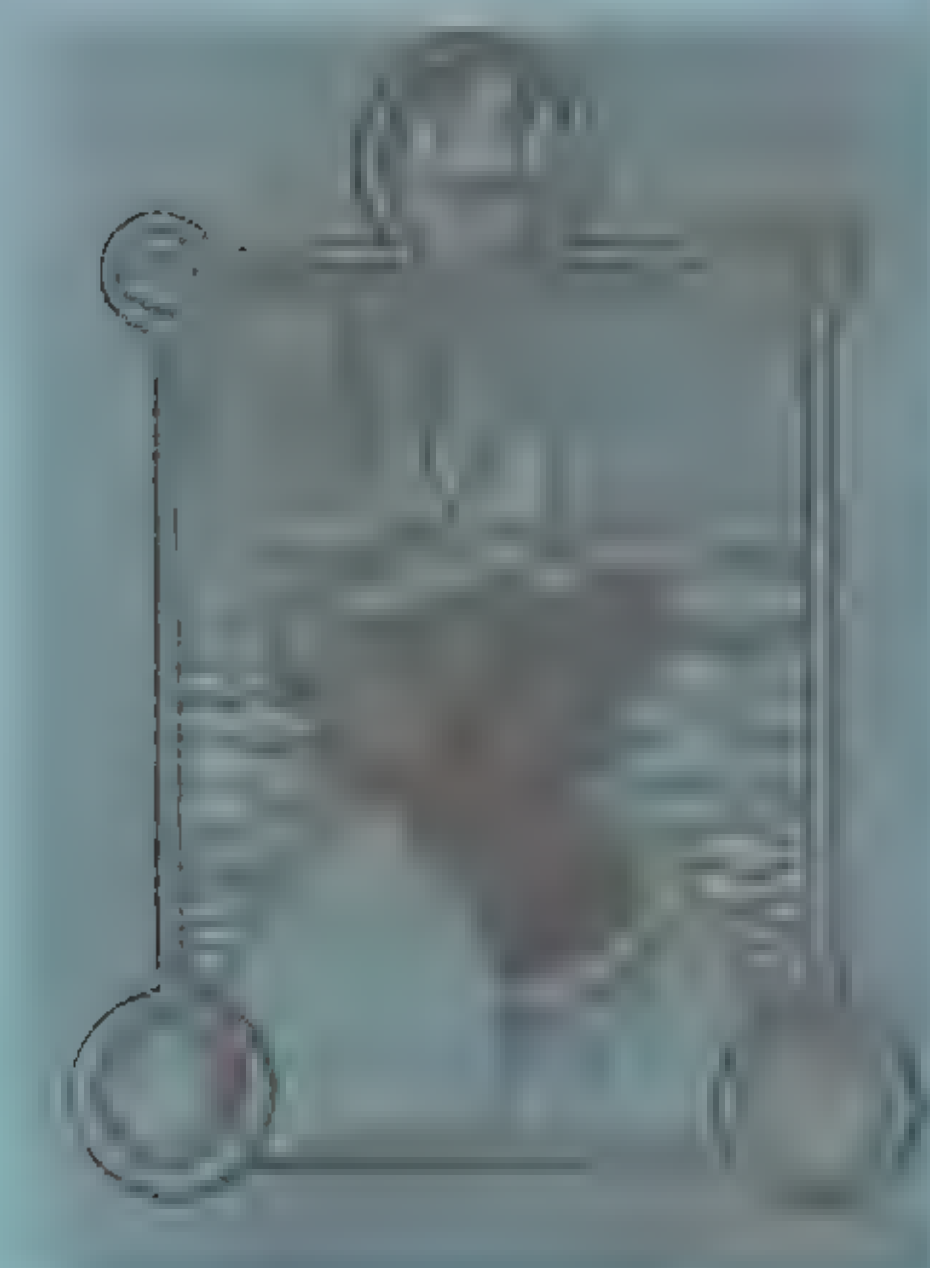

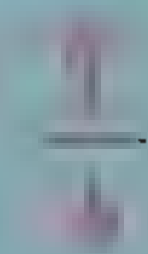

When things are going as they sometimes will,  
When the road seems nudging seems all uphill  
When the odds are against you and the debts are high  
When you want to stop but you have to sigh  
When you press the button a bit  
Rest for a moment but don't quit

Life is quick and its twists and turns  
As everyone knows that many turns  
And many a fall and many a rise  
When he might have been he stuck it out  
Don't give up, the road seems slow  
You may succeed with a little know

Success is failure turned inside out  
The silver tint of the cloud of doubt  
And you never can tell how close you are  
It may be near when you're so far  
So stick to the fight when you're hardest hit  
It's when things seem worst that you must not quit

## MEMORIES

As I sit here quietly  
 Everything is still  
 I wonder where my life has gone,  
 It seems so all uphill  
 I wish I could explain  
 why life just passes me by  
 I wish I was a bird of prey,  
 I'd spread my wings and fly  
 I'd fly away surprise myself,  
 explore the life beyond  
 I would take away the sun of life  
 and sprinkle it all on

The Things I've always want,  
 The Dreams, The Fantasy  
 and they all add up just to one  
 They call these memories  
 Memories are times I've laughed,  
 and loved and cried a little while  
 But I always seem to be content,  
 with the warmth of a beautiful smile  
 But most of all the thing I love,  
 Is the warmth and love from God  
 God knew we needed something more  
 Than earth and sunlight sky  
 And so he gave us friends to love  
 And keep our spirits high

### Feelings of Words

Sitting here all alone,  
 Sometimes I ask myself: Is life really worth living?  
 The single conquest, is it worth the defeats?  
 The wasted words, are they worth the ones spoken?  
 The lonely feelings, do they ever leave?  
 Looking back, my life is filled with defeats, wasted words,  
 Lonely feelings, and a little bit of love,  
 Which makes up for it all.

A rainbow beckons

Old rotten time  
 you seem to go much too fast  
 or much too slow.  
 For every tick forward  
 You take two ticks back  
 And you're poor old tick  
 The only one that's out with it, h  
 just with two ticks slow

When you're we cry  
I can't be  
I'll do my best  
Not to let you down  
When you're lonely  
Come to me  
I'll lift the burden from your soul  
When you're happy  
Remember me

For I could always erase your frown  
When you're crying  
Turn to me  
And bring comfort  
When you're  
I'll do my best  
To dry your tears  
For this is what  
Good friends are for

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1.  $r_1(t) \leq r_2(t)$  for all  $t \in [0, \infty)$ .

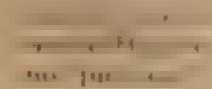

$$\begin{aligned} & \text{for } 0 \leq r \leq \frac{1}{2} \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } \frac{1}{2} \leq r \leq 1 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } 1 \leq r \leq 2 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } 2 \leq r \leq 3 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } 3 \leq r \leq 4 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } 4 \leq r \leq 5 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } 5 \leq r \leq 6 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } 6 \leq r \leq 7 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } 7 \leq r \leq 8 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } 8 \leq r \leq 9 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \\ & \text{for } 9 \leq r \leq 10 \quad |f_{\alpha}(x)| \leq \frac{1}{2} \left( 1 + \frac{1}{2} \right) = \frac{3}{4} \end{aligned}$$

# Hard Work Brings About Success

Donell Matern, Lezlee Matern and Karen Fox portray the three sisters in FIDDLER ON THE ROOF.

The wedding scene in FIDDLER ON THE ROOF was a happy occasion for all.

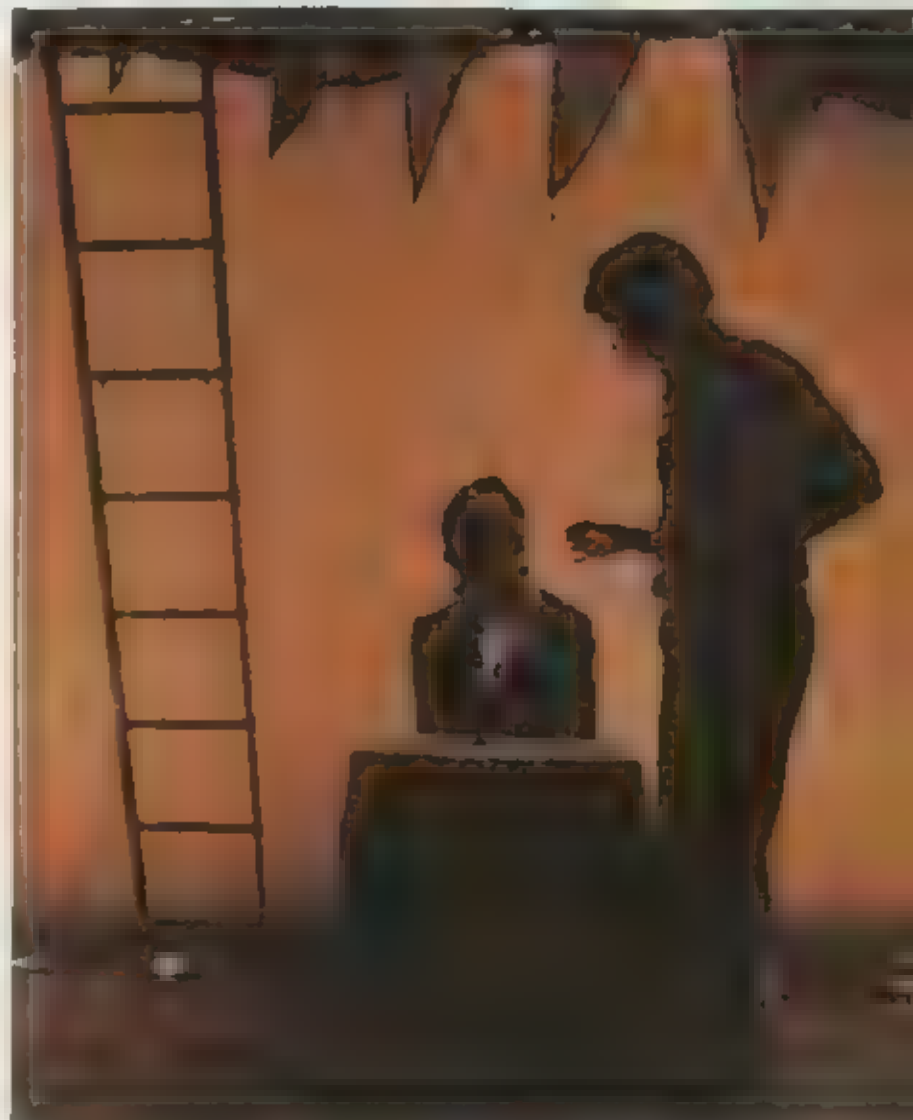

CARNIVAL was one of this summer's hit musicals.

The Granite Hills Acting Workshop has an other excellent season ahead of them, with three great shows to look forward to. The first show of the season will be the hilarious comedy HARVEY. The second show will be an unusual, but moving drama THE NIGHT THOREAU SPENT IN JAIL. Then the 8th season will end with a fantastic musical CAMELOT.

This past summer the Granite Hills Acting Workshop again sponsored the summer workshop. In seven weeks two fine musicals were put together: ONCE UPON A MATTRESS and CARNIVAL.

Besides doing the shows, the club has many other activities which include the annual award show at the end of the season.

# The Pageant Staff Gets It Together

The Pageant staff can be best described as a hard working group of people with a certain objective in mind. Produce a yearbook which best tells the story of the ups and downs, goods and bads of a student's year in high school. With the mere determination of our student editor, Kyle McDougal, every member tries their best to help her reach the goals set by the staff. This year's goal is to get people, lots of different people, actively doing what they do best. That's the key word ACTION. Our photographers are trying their best to show this "action" through their pictures, and trying to avoid the common "say cheese, look at the camera and smile". Another task of the staff is to provide not only pictures, but memories. This yearbook's main purpose is to remind students and teachers of their past school days. With the constant help of faculty advisor Mr. Beharka, these goals will no doubt be met. So, we hope you find that this yearbook completely gives you a remembrance of the past school year.

This year's Varsity Football team is convinced by their coaches that they have formed a perfect playing system and have brought to George Hays the best they are worth, the Triple Crown in Hays football team which has won the League title three years in a row. While doing so the team does hope to build the winning streak to 10 straight League games and 15 overall wins.

This year's team is headed by All-Cent League Morris, a local first-team center, who for four years now, Cent Morris has compiled an impressive 34.8 record. His career record is even more impressive as it is 418.1. Morris is outstanding on the football field. He is 10-10 in the 100-yard dash.

Coach Morris feels that there are only a few two standards of the team, he feels that the Seniors are the leaders. This years team has a group of dedicated seniors which help build a strong nucleus around which the team revolves. They have proven to be hardish, resource, very coachable, and champions all the way.

Conch Morris is also picked up by a very fine ( ) which has been ( ) every ( ). With an ability to ( ) the game, these men have helped pave the way to victory.

The Mighty Eagles went into the season with a clean 80 record. In first round action they annihilated Santa Ana 44-16 and came to the Quarterfinals. There they met defeat as they lost to a very tough Lincoln High. Even though their hopes for a CIF Championship were gone, the Eagles have much to be proud of for they played their hearts out on every play.

Led by seniors Christy Lucas, Kyle McDougal and Patricia McPherson, this years Varsity Tennis team has enjoyed its most successful season. The team enjoyed a outstanding 14-2 league record, one match short of the league title. The match they lost was to a very tough Helix team, a team which has dominated girl's tennis for many years. With a strong team returning next year and the great performances displayed by past teams, Granite Hills shows promise for future dominance.

This years' Junior Varsity team consisted of 29 girls, 10 of which were Freshmen. Even though the team was primarily young, they came out with a 12-4 league record and third place. A team which improved greatly throughout the season, shows strength for the future.

This years' Varsity Water Polo team had an exceptional year says Coach Army Matern. Fighting hard in every game the Eagles compiled a 10 win 11 loss record. It must be noted that many of these games were lost by just one or two points. None the less, the mighty Eagles advanced to C.I.F. competition. There they met defeat twice, both games were lost by one point in each game. Tom Land, a four year Varsity letterman, garnered All-League recognition as did Seniors Mike McKittrick and Bill Erholtz.

Next years team will have to depend on Juniors Victor Clarke, Chris Sampter and Tim Knaak for support.

## DEFENDING LEAGUE CHAMPIONS

The '78 edition of the "Eagle" team shows the character and team make-up necessary to defend its league crown. Coached by Ed Arrieta and Bryan Toth, this years team features skill, ability, speed, aggressiveness, and desire to win! The team is fortunate to pride itself on bench strength, everyone contributes.

One of the problems that Grossmont League teams will have with the "Eagle strikers" is that they are not limited to a particular style of play. Granite Hills can control the ball with a passing game, run the breakaway or score from aggressive inside play. The "Eagles" must survive the endless winter rains and out-play pre-season rated and top league seed Valhalla to repeat last years memorable season

Lead by seniors Blaine West, Brian Graham and Dale Smith the team shows good rebounding ability and scoring balance. This year's team is confident in itself to have the ability to shoot the ball and play unselfishly. This of course reflects the winning attitude of the entire athletic program at Granite Hills.

This year Softball season was one of the best and had The Varsity team started off strong with a record of 4-2, giving them a third place position in the county with the rain though, came in the way. With no game and no time to practice the team began to end it with losing and then came the rain. Next the rain came back and then the team had a season of the game on pace. But the rain came back.

The Junior Varsity team also played at the end of the season hit them at the end of the season. They came back to make a strong comeback. The Junior Varsity team, the Eagles should have a very good team next year and in the future.

Don't forget to send in your dues for  
September to President this year.

Patia Staplow keeps counting the money this  
year while she's Treasurer.

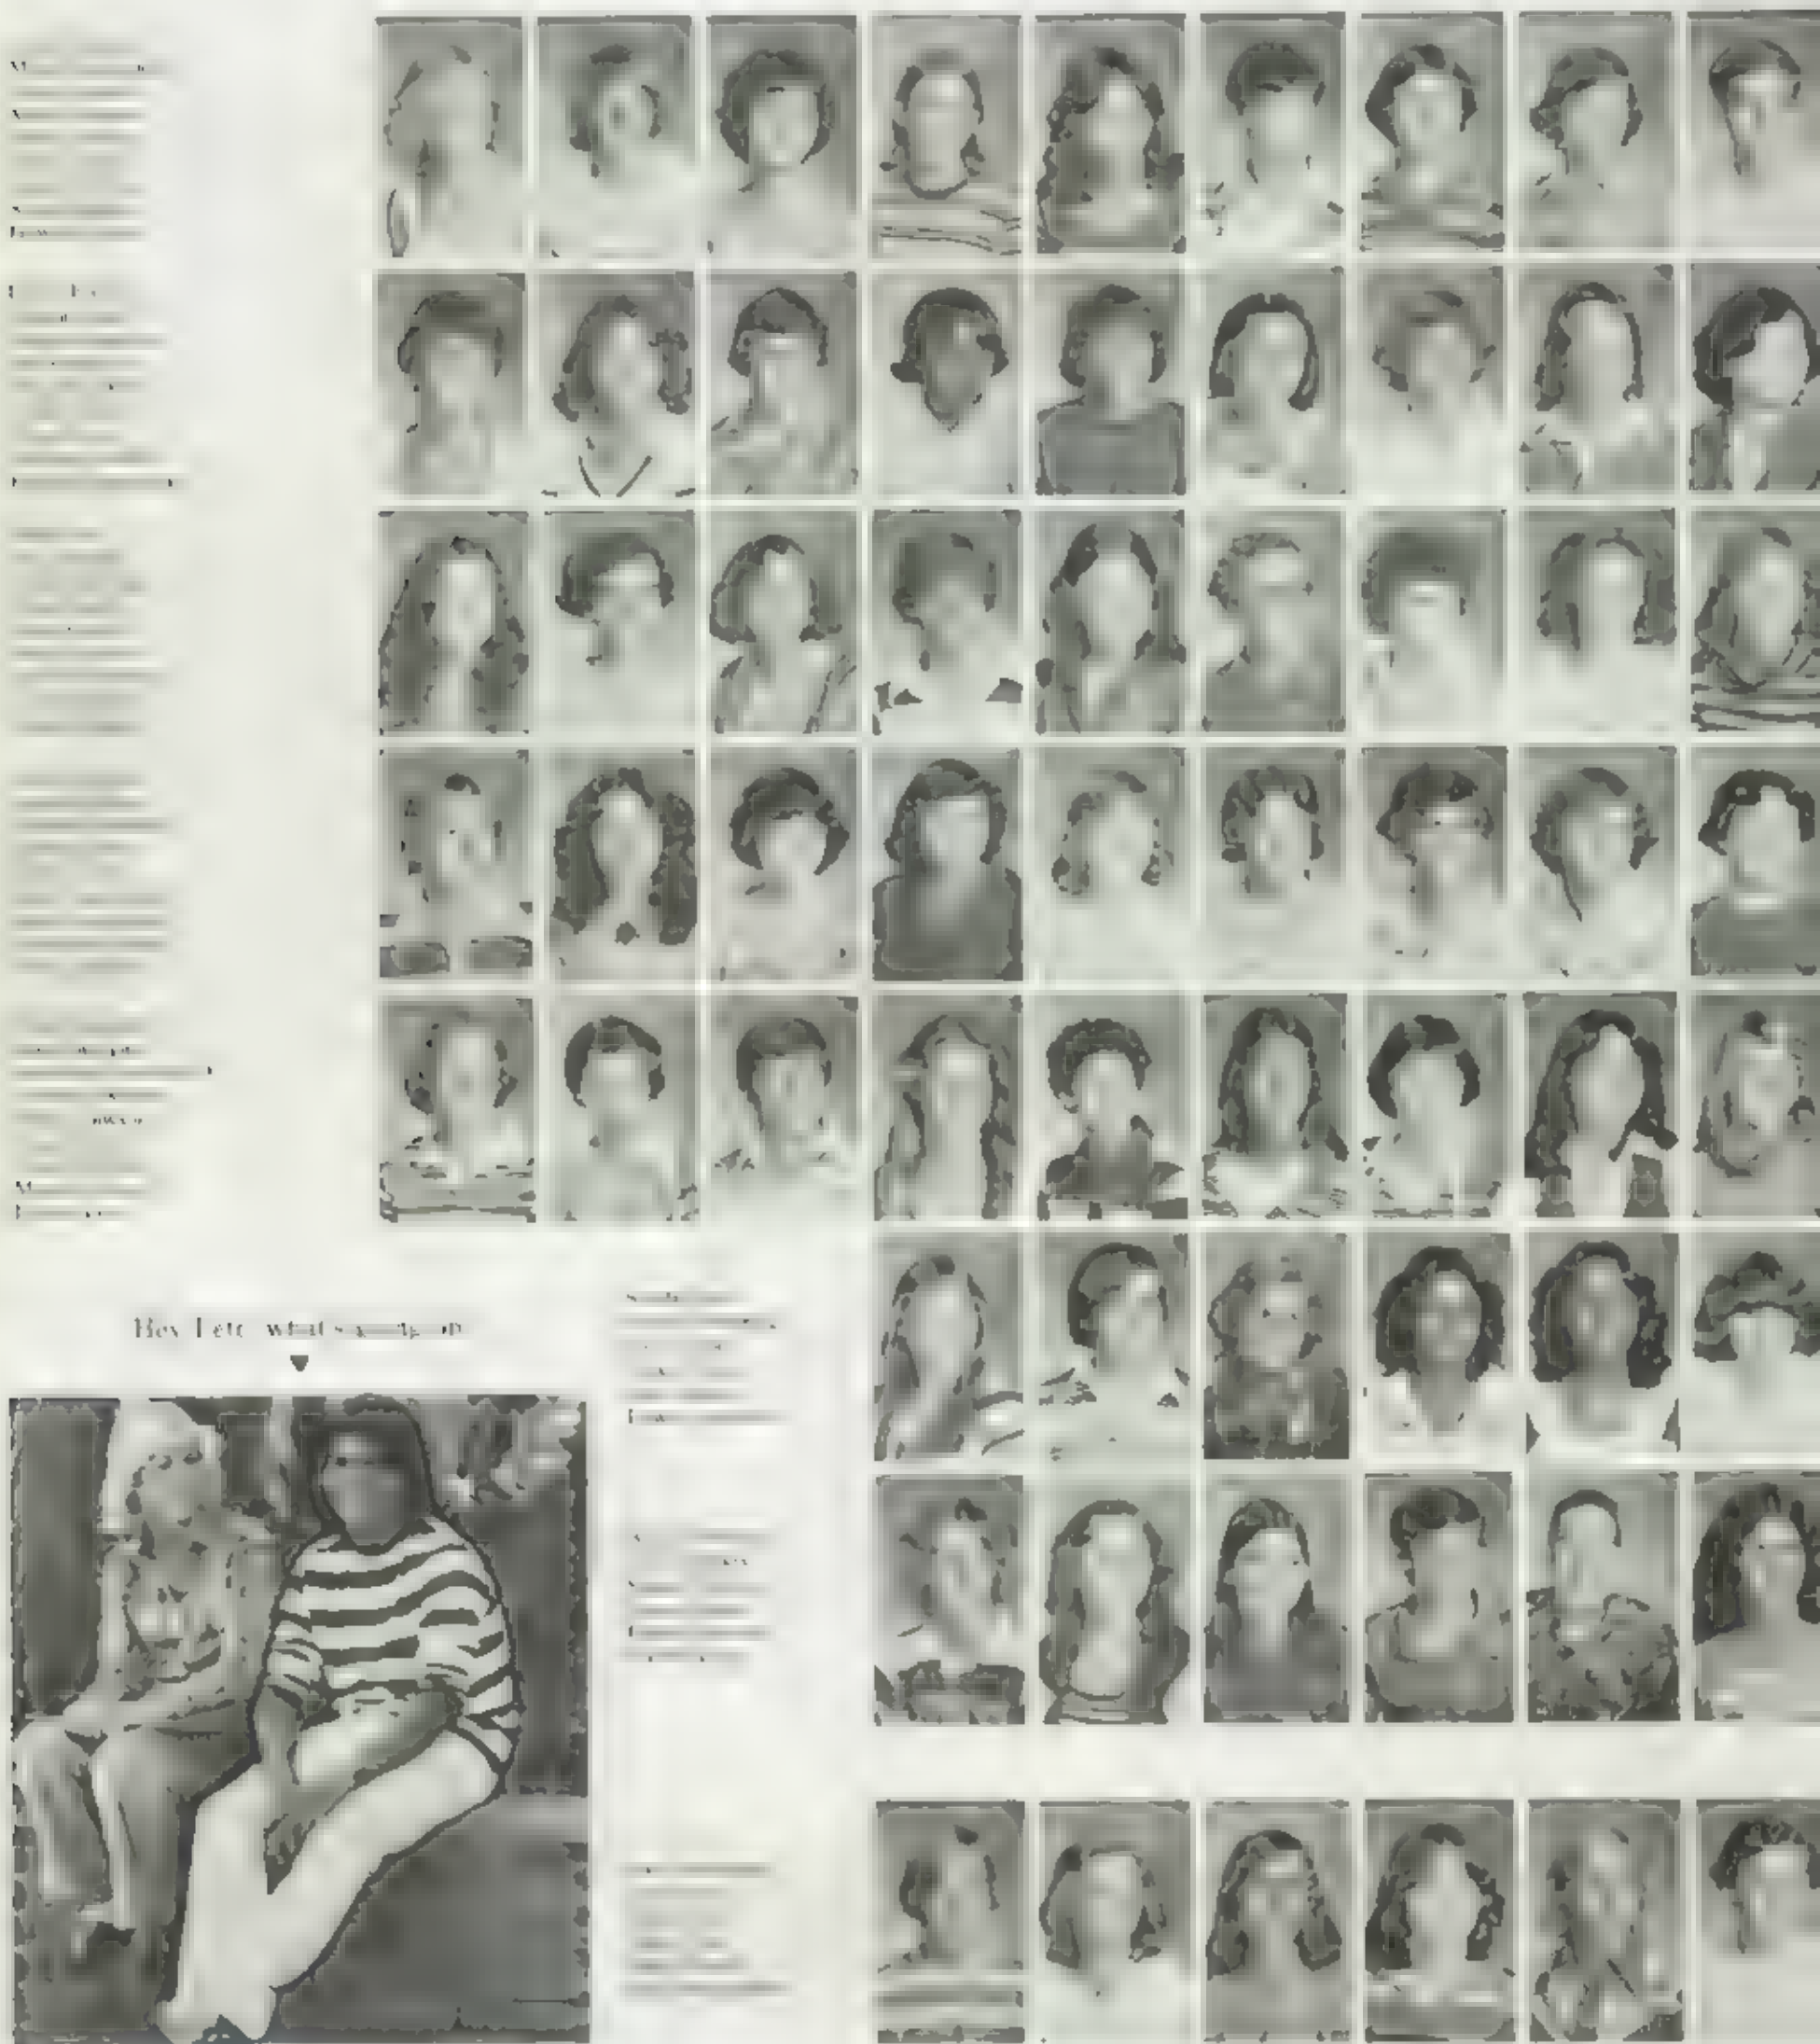

Our Vice-President, Lauren Brown,  
seems to keep things going.

Our Secretary is Kim Cuthway.

Confidence  
Why is it that I can  
never look back and  
be satisfied with having  
done my best.  
It seems that I'm  
always sorry for not  
doing this or that, wishing  
I tried harder or that I  
could just start all over  
again. I guess in a way,  
I'm just asking why am I  
human?

#### Note from the editor:

When I accepted the job of Editor, I didn't know quite what to expect in the coming year. My goal was to try and improve last years annual, which turned out to be quite a challenge.

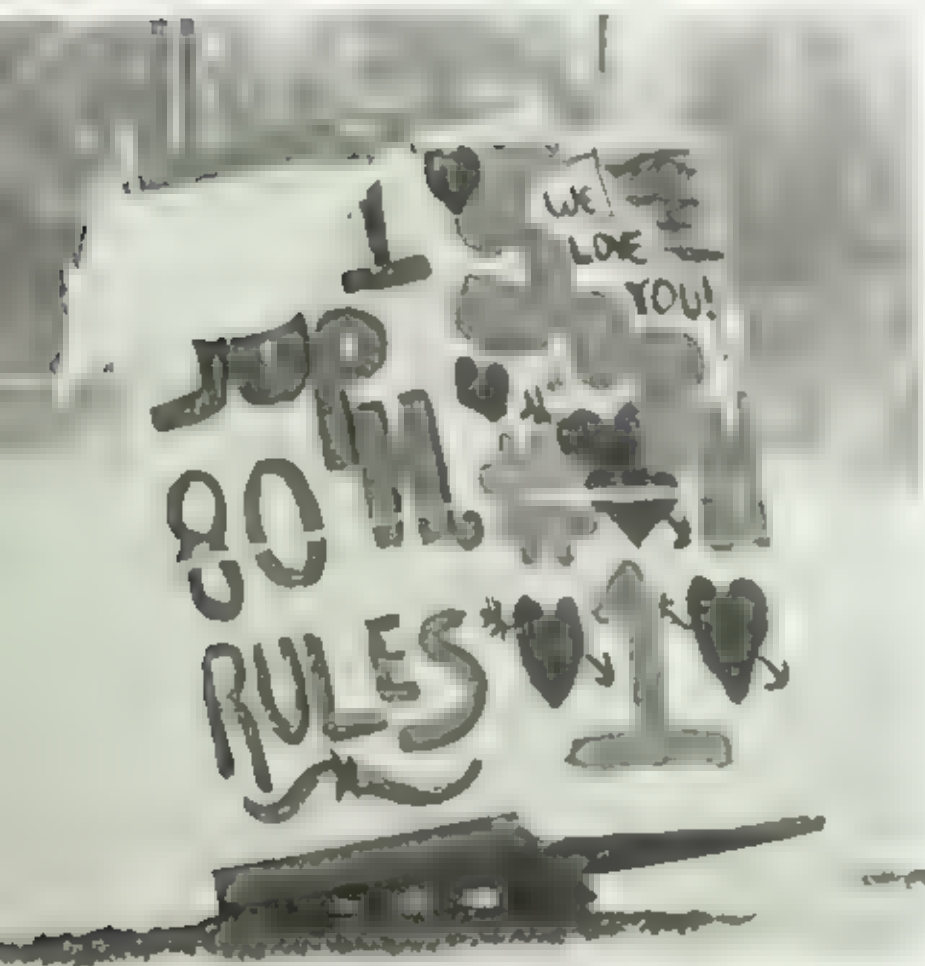

The returning members of the staff helped to pass their knowledge on to the inexperienced students, who learned very quickly. Without their help this book could not have been produced. There were times when it all seemed like a bad dream, but we managed to solve the problems.

The outstanding leadership of our advisor, Dr. Beharka, enabled all of us to continue and not throw in the towel when things looked grim. He put in many extra hours trying to pull things together. I hope next year will be a little easier on the nerves.

Many memories will stay with me throughout my life, anguished cries for more pictures, Square Pan, working out of room 67-A, (not 67), and trying to get things done before sundown, are just a few of them. This year has taught me many things and I thank all of you for giving me this opportunity.
